Construção do Grafismo

O grafismo desenvolvido parte da união de dois elementos essenciais à atividade pesqueira: o movimento das águas (que também está presente no ícone do terminal pesqueiro) e a rede de pesca. A fluidez das linhas onduladas representa as correntes marítimas, evocando a constante movimentação do mar e a vida marinha. Já a estrutura entrelaçada remete diretamente à rede, ferramenta simbólica e funcional do pescador, que captura e conecta.
